Dear Ms. Salas:

The Michigan Information Network (MIN) respectfully submits its comments in response to the Federal Communications Commission (FCC) Notice of Proposed Rule Making and Order released January 25, 2002, regarding the Schools and Libraries Universal Service Support Mechanism (also referred to as "E-rate").

These comments reflect the concerns of many schools (both public and private) and libraries in Michigan that participate in the E-rate program. Comments presented in the attached document also reflect the concerns of the Michigan Department of Education, the Library of Michigan, selected E-rate service providers, and school administrators, as indicated by their respective letters of support which are also attached as part of the comments document.

Sincerely,
